

Add the 3rd dimension to your calls

VoiceCall

VideoCall

HoloCall

Organize holographic meetings and appear anywhere in the world with your 3D content.

Amaze your clients with HoloCall cutting edge experience while saving time, money and our environment by reducing your travel costs.

Forget 3D printing your models, just add them to your HoloCall and it will appear as a floating hologram, so you can showcase it to your partner.

Kingsman: The Secret Service (2014)

In this movie agents communicate on a holographic meeting with their sleek concept smart glasses. CGI is used to create the experience.

360world: HoloCall solution (2018)

HoloCall team is recreating the movie scene wearing Microsoft HoloLens smart glasses and Kinect cameras are used to capture the experience.

Supported RGBD cameras
